

Build Your Startup Record File

Create one defensible home for every foundational record.

MISSION BRIEF

Organize formation, ownership, EIN, banking, tax, licensing, and renewal records so the office can prove what was done and when.

FOUR OPERATING PRINCIPLES

Use a permanent index Create consistent folders for legal, tax, banking, ownership, insurance, licenses, contracts, and renewals.	Preserve source documents Keep accepted filings, official notices, signed agreements, and confirmations rather than relying on summaries.
Control access Limit sensitive records to authorized roles and protect digital copies with secure storage and backups.	Track obligations Add annual reports, licenses, elections, renewals, and other recurring requirements to a compliance calendar.

TOOLKIT SOURCE: PAGES 25-32

Verify current requirements with official sources and qualified professionals.

Design your permanent record index

List the location, owner, and next action for each category. Do not upload confidential documents into this prototype.
