

Install Review and Fraud Safeguards

Detect inconsistencies before they become filed returns.

MISSION BRIEF

Add identity verification, consistency checks, reviewer checkpoints, red-flag escalation, and documented resolution to the workflow.

FOUR OPERATING PRINCIPLES

Prevent Identity, access, source, and payment controls	Detect Diagnostics, comparisons, duplicates, and unusual-result checks
Escalate Pause, reviewer assignment, investigation, and decline rules	Evidence Resolution notes, approvals, corrections, and retained support

TOOLKIT SOURCE: PAGE 66

Verify current requirements with official sources and qualified professionals.

Fraud Safeguard Map

Confirm that prevention, detection, escalation, and evidence work together.

Prevent

Identity, access, source, and payment controls

Detect

Diagnostics, comparisons, duplicates, and unusual-result checks

Escalate

Pause, reviewer assignment, investigation, and decline rules

Evidence

Resolution notes, approvals, corrections, and retained support

Accountable owner

Name the role responsible for completion

Completion evidence

Record the document, test, approval, or proof

Name the red flag that will automatically stop a return in your office and identify who can release it.

Use this page to prepare focused questions for the appropriate government agency, attorney, tax professional, banker, insurer, technology professional, or vendor.
